

# Accident Investigation in the Workplace

## This is set at Level 3 for Supervisors and Managers

---

This qualification is designed to prepare learners to progress into further/higher level training and is designed to provide learners with an awareness of the benefits of Accident Investigation in any environment. We have adapted this qualification to encompass a wide range of scenario's that have happened within a variation of industries.

Currently no Accident Investigation courses aimed at small business owners and is unique in its provision to help prevent HSE prosecution or sanctions. This is because you will be able to remedy any shortfalls quickly and effectively by using the methods taught on the course. By creating a fully objective report on any accidents within the workplace you will be able to understand what policies and procedures to implement to prevent any further accidents or incidents.

- Accidents and Near Misses
- Investigation & Interviewing
- Accident Causation
- Report Writing & Format

### **How long will it take me to achieve this qualification?**

This qualification is usually achieved by taking a two or Three-day course, however, it can also be achieved through a variety of other methods including blended, distance and e-learning. Learners will visit specially designed set scenarios to understand the mechanism of injury and discover the failings that caused the incident in the first place.

### **How is the qualification assessed?**

It is assessed by a Portfolio of evidence based on the scenario's provided during the course.

### **What next?**

Learners successfully completing this qualification may wish to progress onto further qualifications, such as:

- Forensic Protection Operative (VPO)
- Level 3 Award in Health and Safety within the Workplace (RQF)

### **Where can this course be taken?**

At our Specialist Training Centre in Pulborough West Sussex or at a Suitable Business Facility or Training Venue provided by you
